

## General Aviation Day – Volunteer Central

On behalf of the Paine Field WPA chapter, thank you for volunteering. General Aviation Day is our biggest community outreach event of the year and our opportunity as an organization to introduce the public to the good people and contributions of General Aviation in our community.

I have attached a spread sheet which shows where all volunteers have been assigned and who is the chairman of that portion of the event. If I have made an error in your assignment, please let me know. Specific questions about what you will be doing on General Aviation Day should be sent to the chairman. If you have not yet volunteered, look at the information below. The volunteer positions still needing filled are highlighted in yellow.

On General Aviation Day, volunteers should arrive prior to their assigned time and check in at the WPA tent by the main entrance before contacting their chairman. This way we can be sure everyone has arrived.

On Wednesday May 12 we will be having a volunteer dinner at the Museum of Flight Restoration Center. This will be a chance to meet everyone and answer any final questions you might have. We will be sending out an email closer to the event with the time and more details.

Again, thanks for volunteering.

Marilyn Fries
